About the Council Plan.

Our Council Plan supports the achievement of the 2030 Community Vision through strategic objectives and measurable actions over the next four years.

The Council Plan sits within our planning framework (page 28) and shows how we support its implementation through a resourcing strategy, service plans and operational plans.

We have also created a ten-year financial plan and a four-year budget that outlines our spending and revenue priorities to support the Council Plan.

As we embark on the journey towards delivering the 2030 Community Vision, we have determined the key strategic goals we need to focus on over the next four years in our Council Plan.

The Council Plan will be implemented through annual commitments set out in the Annual Report which will also include our performance.

In accordance with the Local Government Act 2020, this Council Plan will be integrated into the medium and long-term delivery of services to the community.

A message from the Mayor and CEO.

We are honoured to bring you Moorabool Shire's Council Plan for the 2021-2025 period – a Plan that provides the strategic focus for Council over the next four years.

It's been a challenging year for our community, but one that has galvanised us and brought into sharper focus what's really important.

As we rebuild from the impact of COVID-19 and adjust to new ways of living, it has been an ideal time to hear what is important to you in collecting your insights for our 2030 Community Vision. How we go about delivering that Vision over the next four years has been carefully considered in formulating the priorities and actions of our four-year Council Plan.

We have orientated resourcing and actions around three big, strategic goals:

- Healthy, inclusive and connected neighbourhoods
- Liveable and thriving environments
- A Council that listens and adapts to the needs of our evolving communities

While all Councils face fundamental service requirements for their communities, Moorabool Shire presents a fairly unique set of challenges.

For instance, by 2030 there will be about 14,000 more residents living in the Shire. Such growth creates unprecedented challenges for infrastructure and service delivery. This growth means we need to carefully plan developments while maintaining the Shire's unique rural charm.

Forces on a global scale around environmental sustainability are now a hugely important local concern. As a Council we need help create more sustainable lifestyles for our current and future communities.

Rapid advances in technology manifest numerous innovation opportunities – such as digital communications, how we deliver our services, planning and construction techniques, and advances in agriculture. However, limited resources can often mean that innovation occurs as much in our thinking as it does in adopting the latest technology.

While the year has been difficult at times, a hugely exciting period for the Shire awaits. We look forward to receiving your feedback on our 2021 – 2025 Council Plan.

Mayor Cr Tom Sullivan

CEO Derek Madden

Diversity, access and inclusion.

Council respects the rights of equal access for everyone and values the diverse communities who live, visit and work in the Shire.

Our municipality plays host to: people young and old; those living with a disability; people with diverse gender identities; LGBTIQA+ communities; indigenous people; people from diverse languages; diverse political perspectives; diverse cultural groups; and those who have experienced advantage or disadvantage.

It is this diversity that strengthens our community and shapes the services, facilities and public spaces we provide every day.

“ We consider the needs of approximately 8,100 residents living with a permanent or temporary disability in the Shire every day.

Bev Watson
Access and Inclusion Officer

Acknowledgement of country.

Council respectfully acknowledges Moorabool Shire’s indigenous history and we pay our respects to its elders both past, present and emerging. We extend that respect to all Aboriginal and Torres Strait Islander People who are a part of Moorabool Shire.

Our land was traditionally occupied by, and connected to, a number of Aboriginal communities for tens of thousands of years.

This land is home to the Wadawurung Tribe in the south and west, the Dja Dja Wurrung Tribe in the northern ranges and the Wurundjeri Woi Wurrung Corporation in the east.

We appreciate our responsibility to care for the land and maintain it for future generations to enjoy.

Our community and Council

Community profile.

Moorabool Shire is an increasingly popular choice for those seeking rural tranquillity with a mix of an urban lifestyle.

The current population of 36,344 is forecast to double in the next 20 years.

The municipality contains 64 settlements of varying sizes. These range from small towns, hamlets and farming settlements to the larger districts of Bacchus Marsh and Ballan.

Location

Moorabool Shire is positioned along the major road and rail transport corridors between Melbourne and Adelaide. Its eastern boundary is located just 40km west of Melbourne’s CBD and extends westwards to the City of Ballarat municipal boundary.

The Shire straddles Victoria’s Western Highway and has excellent transport access to Melbourne, Ballarat and Geelong.

Bacchus Marsh is equidistant to Melbourne and Avalon airports and close to the sea ports of Geelong and Melbourne.

Our population is growing and is forecast to double in the next 20 years.

The challenge

Part of the Peri-Urban Group of Rural Councils, Moorabool Shire faces a significant financial challenge in funding this population growth from its current rates base.

For instance, Moorabool Shire is responsible for maintaining and building a road network that stretches the equivalent distance from Melbourne to Newcastle. However it has less than one third of the rates revenue that regional city councils can access to fund its road construction and maintenance requirements. The financial challenge will be exacerbated in peri-urban Shires like Moorabool, as the burden of service provision will fall disproportionately on them in the future.

To 2031, the peri-urban region is forecast to grow by an average of 45.3%. By way of comparison, other better funded regional councils, with larger revenue streams, will experience growth of 26.7%. The Shire’s unprecedented and sustained growth presents significant infrastructure challenges for both existing gap funding and new infrastructure to cater to the growing population’s needs and expectations.

Our diverse and growing community.

Business, tourism, and investment.

The diversity of Moorabool's economy, from agriculture through to professional services, underpins our economic resilience. Whilst sustaining our unique regional/rural lifestyle, we leverage our enviable ease of access to Melbourne, Ballarat and Geelong.

Economic development holds a pivotal role in connecting local people to jobs, identifying infrastructure priorities to leverage future investment (such as in Parwan), branding the experiences for visitors in accessing Shire attractions and collaborating with local industry and regional stakeholders to build capacity and unlock growth.

Moorabool's prospective industries include agriculture – primary production, agribusiness – processing and value adding, health services, tourism, education, retail, and professional and business services. Many supporting industry sectors are anticipated to thrive due to the increased customer base driven by population growth.

The liveability of the Shire is key to attracting higher value workers and businesses. Aspects such as housing, skills, transport, access to community infrastructure, culture, health, the natural environment and social capital all influence the economic sustainability of Moorabool. Liveability and visitability are two sides of the same coin – as such tourism and awareness of the Shire's brand are key to our vision for growth.

By leading economic development in the Shire, Council is positioned as a champion of growth, facilitating and advocating for investment, providing support, networking and training for business, along with digital and traditional marketing campaigns to promote the value of spend local, and the Shire's visitor experiences.

The creation of a new Economic Development strategy, and a separate Visitor Economy strategy, will deliver a pathway to further success and growth for Moorabool's economy. Further supported by Council's Economic Development Taskforce, and expert industry advice via the Local Business Advisory Committee, Moorabool Shire's growth trajectory will stem from a strong foundation of insight and momentum.

External forces and legacy issues.

Council must address the common issues such as strategic planning, the environment and the economic issues that face all Councils. But there are also other challenges to consider that are more unique to the Shire.

Forces and issues		Considerations for the Plan
 State intervention Handling state decision-making and funding decisions that impact the direction of projects.		Advocate for funding and support for solutions that are outside of our control.
 Growing the economy post COVID Finding jobs for residents in the Shire. Ensure infrastructure delivery keeps pace with growth.		Introduce and leverage industries that fit our region – use the skillsets coming to the Shire.
 Environment and sustainability Maintain our peri-urban identity while making necessary infrastructure developments.		Adopt a sustainable growth strategy. Are we getting the benefit of our renewable energy platform?
 Waste management State government shifting Victoria to a circular economy.		Educate residents and businesses on responsible waste management.
 Community expectations A growing population that expects high levels of service and considered developments.		Address demands for better access to services, infrastructure improvements, and ability to complete tasks online.

Council organisation.

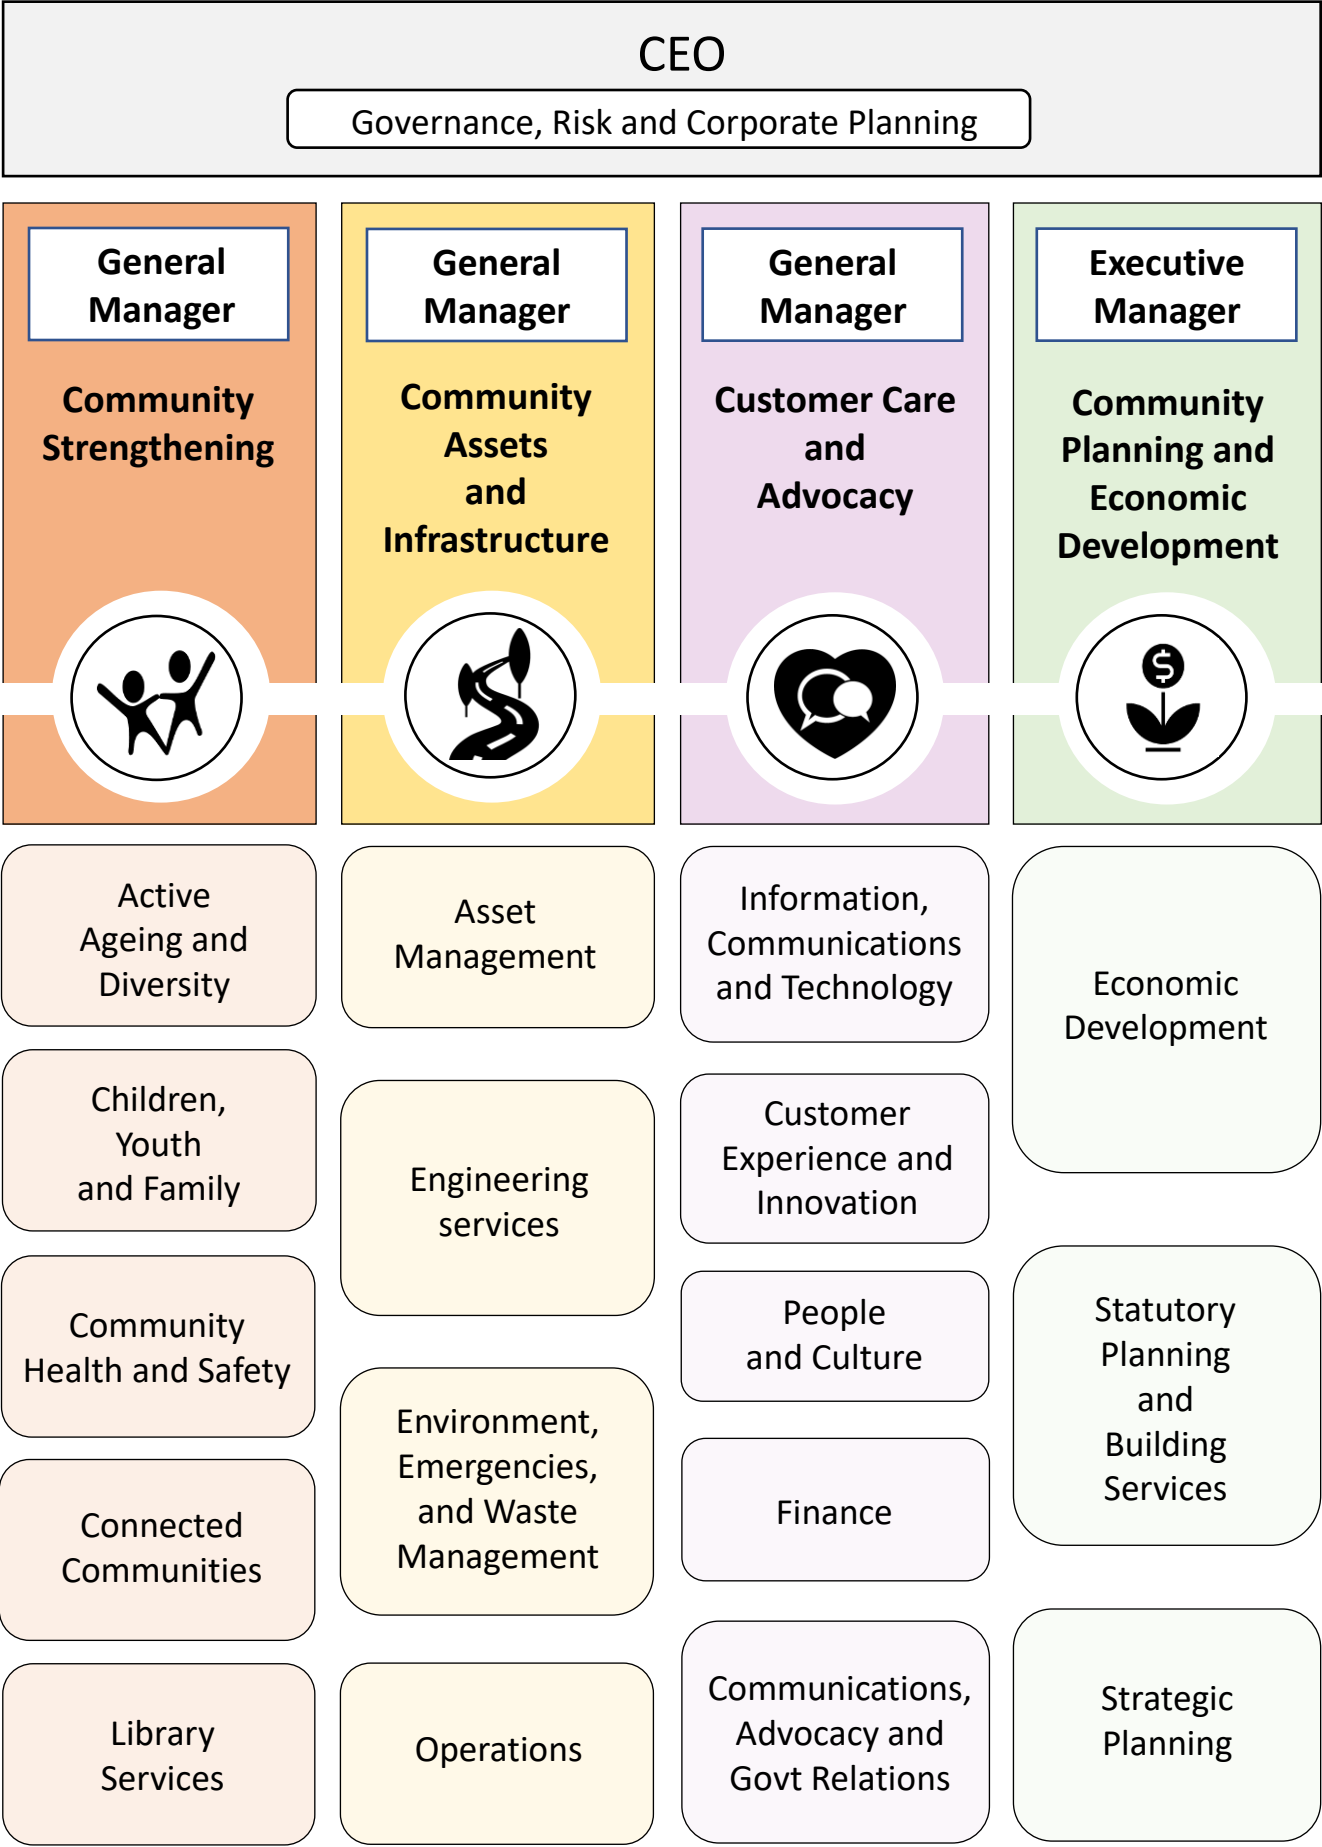

Moorabool Shire Council is led by a leadership team of key staff - the Chief Executive Officer, three General Managers and one Executive Manager.

The organisation also employs third-tier managers who make up the Senior Management team. This team manages the day-to-day operational activities of the organisation to deliver the core corporate goals as stipulated in the Council Plan.

Please refer to the website for any updates to staffing and structure

Teams structure.

Our Vision, Purpose and Values.

Vision

Embracing our natural environment and lifestyle options to create an inspiring place for everyone to live, work and play.

Our Vision captures a dedication to achieve the shared aspirations of the community.

Purpose

Council exists to co-design local solutions that enable our communities to prosper now and into the future.

We do this by:

- Providing good governance and leadership
- Minimising environmental impact
- Stimulating economic development
- Improving social outcomes

Our Purpose describes how we approach each day to achieve our goals towards this Vision.

Values

Our Values help us build strong relationships internally, with the community and partners.

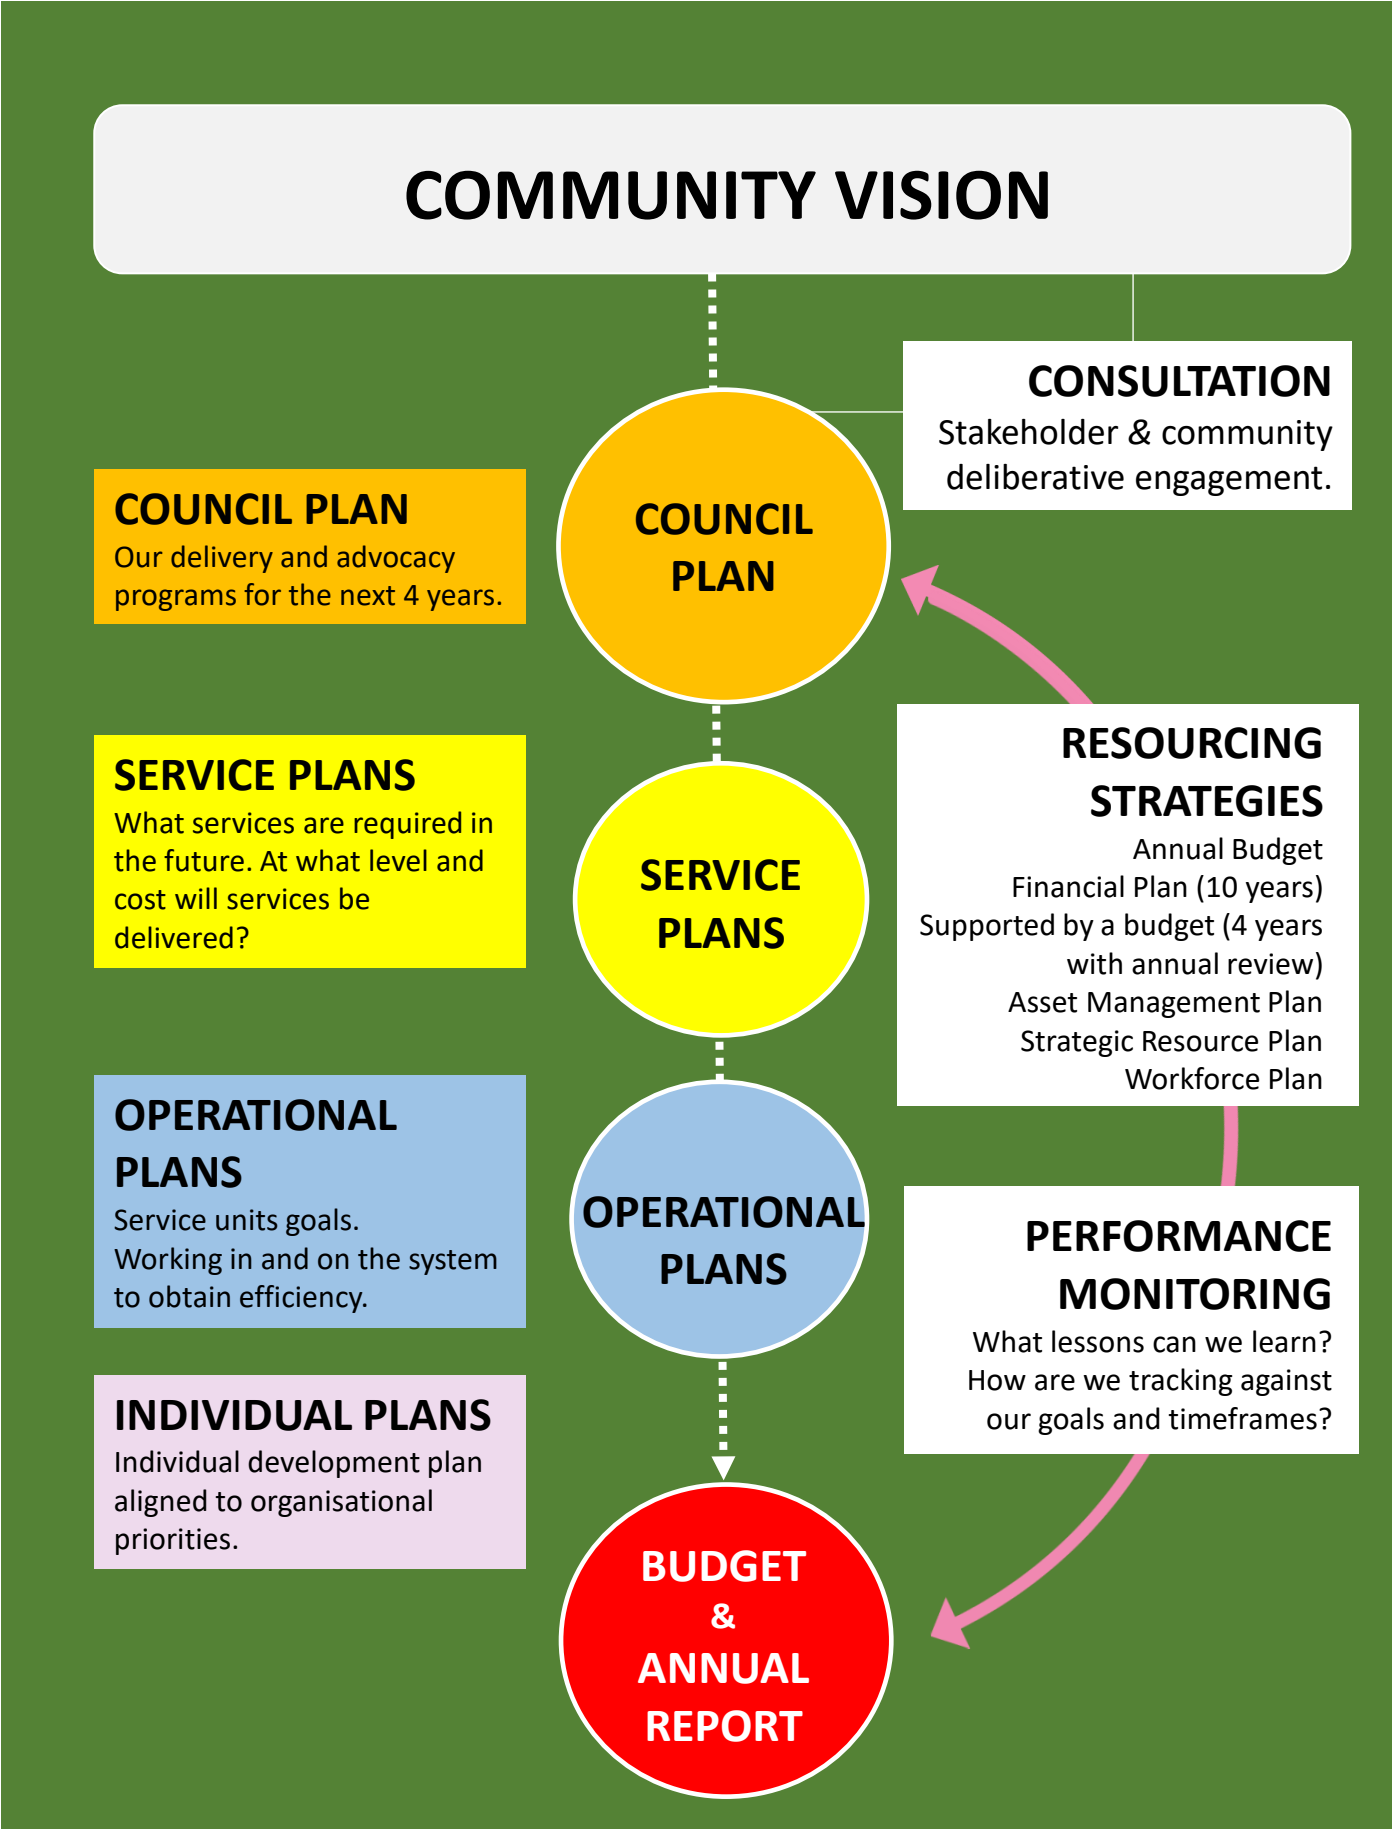

Our four-year Council Plan Vision into Action

Our integrated strategic planning framework.

Our planning framework illustrates how we link the operational functions of our services to resource and finance the ongoing delivery of the Council Plan.

The Local Government Act 2020 requires councils to take an integrated approach to strategic planning and reporting. This new approach recognises that planning must be holistic and driven by the community.

It ensures we share a clear vision to guide collaborative working, partnerships and advocacy opportunities. It helps Council build accountability and demonstrate value back to the community on an annual basis.

Developing the Council Plan.

The Council Plan galvanises the shared aspiration of the Community Vision to create the strategic goals and actions for the next four years.

Through our Municipal Strategic Statement we capture where we want to be in the next four years as we work towards the longer-term Community Vision for 2030.

Our Council Plan will focus on three strategic goals that are aligned with the five key themes identified in the 2030 Community Vision.

These were decided upon after deliberative engagement with the community and subsequent Councillor endorsement.

Monitoring and learning

We want to make sure that we are continually meeting the objectives in the Plan and measuring community satisfaction. To do this we establish a number of different criteria to measure our performance and look for areas of improvement.

10 years

OUR COMMUNITY VISION STATEMENT

We embrace our natural environment and lifestyle options to create an inspiring place for everyone to live, work and play.

4 years

OUR MUNICIPAL STRATEGIC STATEMENT

In 2025, we will be recognised for advocating and supporting a strong, inclusive community that co-exists with the natural environment.

Our organisation will deliver services that best serve a growing community and support a self-sustaining local economy.

2. Liveable and thriving environments

A circular icon showing three people standing together and holding a large red heart.

3. A Council that listens and adapts to the needs of our evolving communities

Our structured approach.

The following pages break down our strategic approach towards delivering the Council Plan over the next four years.

There are three distinct objectives that describe the future we are seeking to achieve. Each objective is then structured as follows:

- **The indicators and specific measures to reflect performance**
- **The five key priorities for each objective**
- **Distinct actions for how we plan to reach the objective**

We will track our progress through different performance indicators that we publish in our Annual Report.

Performance towards our objectives

1. Our Shire dashboard

There are certain measures that fall outside of our control but help us understand how certain objectives are tracking at a local government level.

2. Council indicators

Measure the results (and to some extent impact) of Council's work and are (mostly) within the direct control of the Council.

Data and sources

Data to measure performance will be drawn from Council operational data, survey results, State Government data and Australian Bureau of Statistics. This collection of indicators will be reviewed for statistical reliability and appropriateness on a regular basis. Data collected over a period of time will be utilised to improve Council's performance.

Council will continue to further develop and improve the way performance and results are measured and reported.

Our Shire dashboard.

There are some measures outside of Council’s control that help us understand how our objectives are tracking on a local government level.

Community involvement and feedback.

Our community plays an integral role in shaping the future direction of the Shire – starting with the insights that we captured in creating the 2030 Community Vision.

Community engagement, however, is not restricted to the Community Vision – feedback from, and interaction with, all corners of the municipality drive Council decision-making every day.

The standards of excellence to which we hold ourselves accountable when helping our customers is what drives us forward. Equally as important is to provide the opportunities for the community to be heard and involved in our decision-making.

We are committed to monitoring the delivery of our actions over the next four years. With your ongoing feedback we will navigate many new challenges and welcome many new opportunities along the way.

We thank you for your consultation in helping us create our Council Plan 2021 – 2025 and we look forward to working alongside you to create an inclusive and flourishing community.

“ Where beauty, liveability, and opportunities flourish.

Moorabool Shire 2025.

Glossary of common terms.

Important words frequently used by Council that are not always easy to understand.

Liveability

Liveability is the sum of the factors that add up to a community's quality of life—including:

- the built and natural environments
- economic prosperity
- social stability and equity
- educational opportunity
- cultural, entertainment and recreation possibilities

Diversity

Diversity means including or involving people from a range of different social and ethnic backgrounds, different genders, sexual orientations, self-identification preferences, and physical and cognitive disabilities.

Accessibility

Accessibility is the practice of making your service and product (including website) useable by as many as possible. We typically think of this as being about people living with disabilities, but it should also address those with situational or temporary access issues such as slow internet connection, direct sunlight or a broken arm.

Sustainability

Sustainability means meeting our own needs without compromising the ability of future generations to meet their own needs.

In addition to natural resources, we also need to consider social and economic resources.

Innovation

Innovation is about turning an idea into a solution, or improving an existing way of doing things, so that it adds value from the customer's perspective.

Before we think about introducing new technology, we first seek to improve the process.

“Innovate the factory before you innovate the product.”
