## Strategic Community Infrastructure Priorities

### for BALLAN

August 2019

This document is an extract from the 'Strategic Community Infrastructure Priorities for Moorabool Shire' report. It summarises the recommendations and projects of relevance to the Ballan community.

For information about community infrastructure priorities in other parts of Moorabool Shire, please refer to Council's website.

#### A report from the Moorabool Community Infrastructure Framework

This document identifies the highest priority community infrastructure projects for Moorabool Shire now and up to the year 2041, based on current population forecasts. When Council's forecasts are updated, or other data and assumptions change significantly, the needs analyses, findings and recommendations will need to be reviewed and the priorities re-set if required.

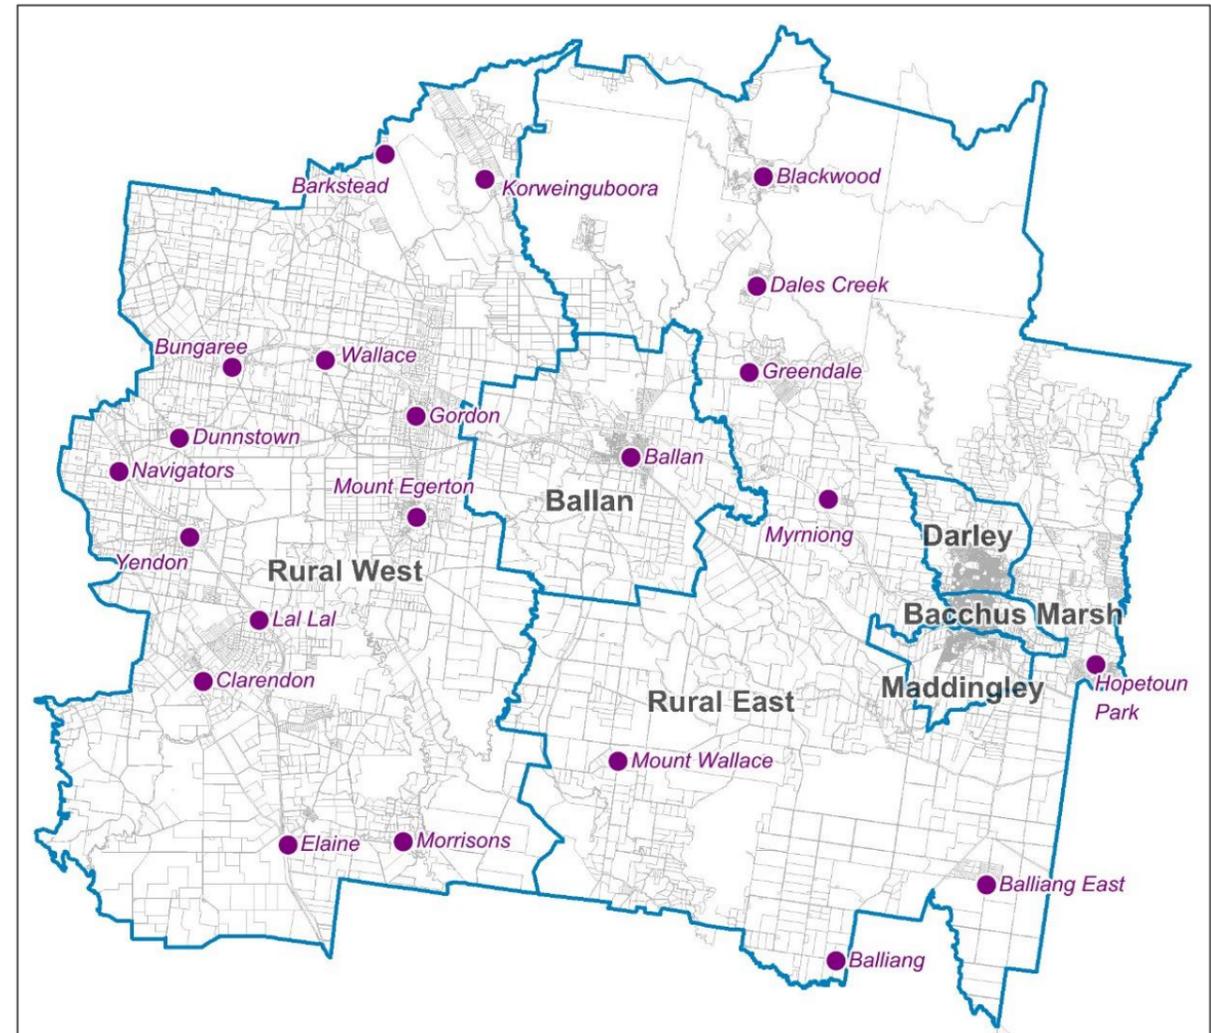

Each project responds to community needs identified through the *Community Infrastructure Needs Analysis Findings and Recommendations* report (August 2019) and the various analyses of community need conducted between March 2018 and April 2019.

For more information about the Community Infrastructure Framework and the assessments used to inform this report, please refer to the Moorabool Community Infrastructure Planning Policy and Community Infrastructure Planning Process on Council's website.

## How to read the tables of priorities

Read down these columns to see which location each recommendation applies to (refer to map on preceding page)

**KEY:**

-  recommendation most directly benefits this location or locations
-  recommendation also benefits this location

For background, evidence and rationale for each recommendation, refer to the *Community Infrastructure Needs Analysis Findings and Recommendations* report (August 2019) for each of the service / facility types listed here.

Ballan	LOCATION					SERVICE AREA					Service / facility type(s)	Recommendation	Commence planning	Deliver by	Current Status
	Rural West	Rural East	Darley	Bacchus Marsh	Maddingley	Aged & Disability	Community spaces & libraries	Children & young people	Early years	Sport & recreation					
											.				

Read down these columns to see which service areas each recommendation applies to.

**KEY:**

-  recommended project meets identified needs for this service area

Recommendations are grouped by:

- Short term (3 years); 2019 to 2022
- Medium term (3 to 10 years); 2023 to 2029
- Long term (beyond 10 years); 2030 to 2041

For each recommendation, indicative years for 'commence planning' and 'deliver by' are provided. Other than the above groupings and indicative years for planning and delivery, the order that recommendations appear in the tables is not an indication of the relative priority of recommendations.

CIP = 'Capital Improvement Program'
