MAP A1: TRAVEL ACCESSIBILITY ASSESSMENT RESULTS

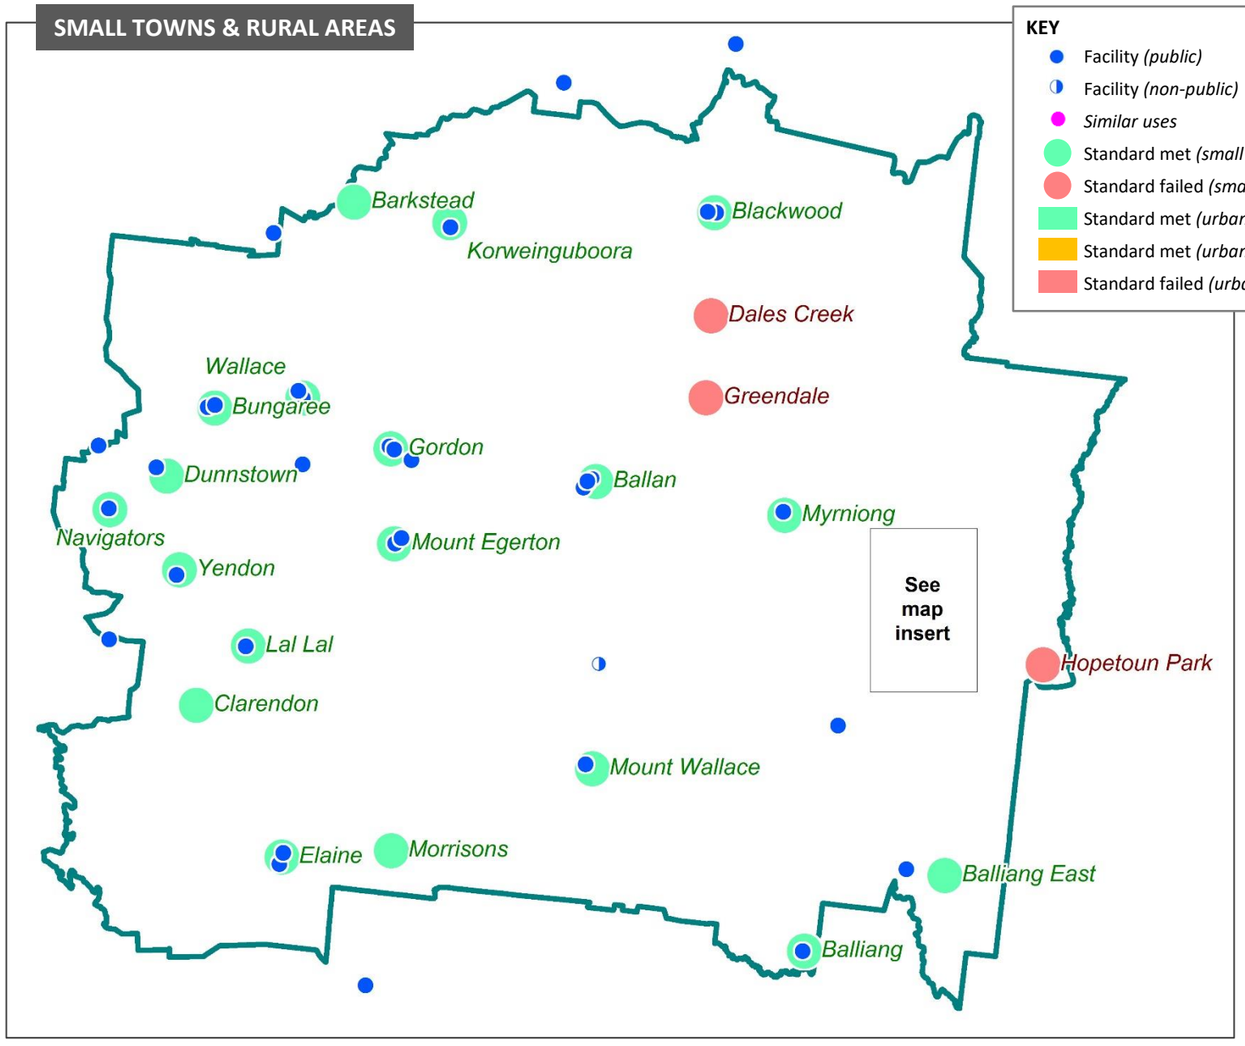
Report: Community Needs Analysis Findings, Moorabool Community Infrastructure Framework

Due to the complementary nature of provision, these results should be interpreted alongside the maps for 'Community venue – local', 'Community venue – district' and 'Community venue – municipal'

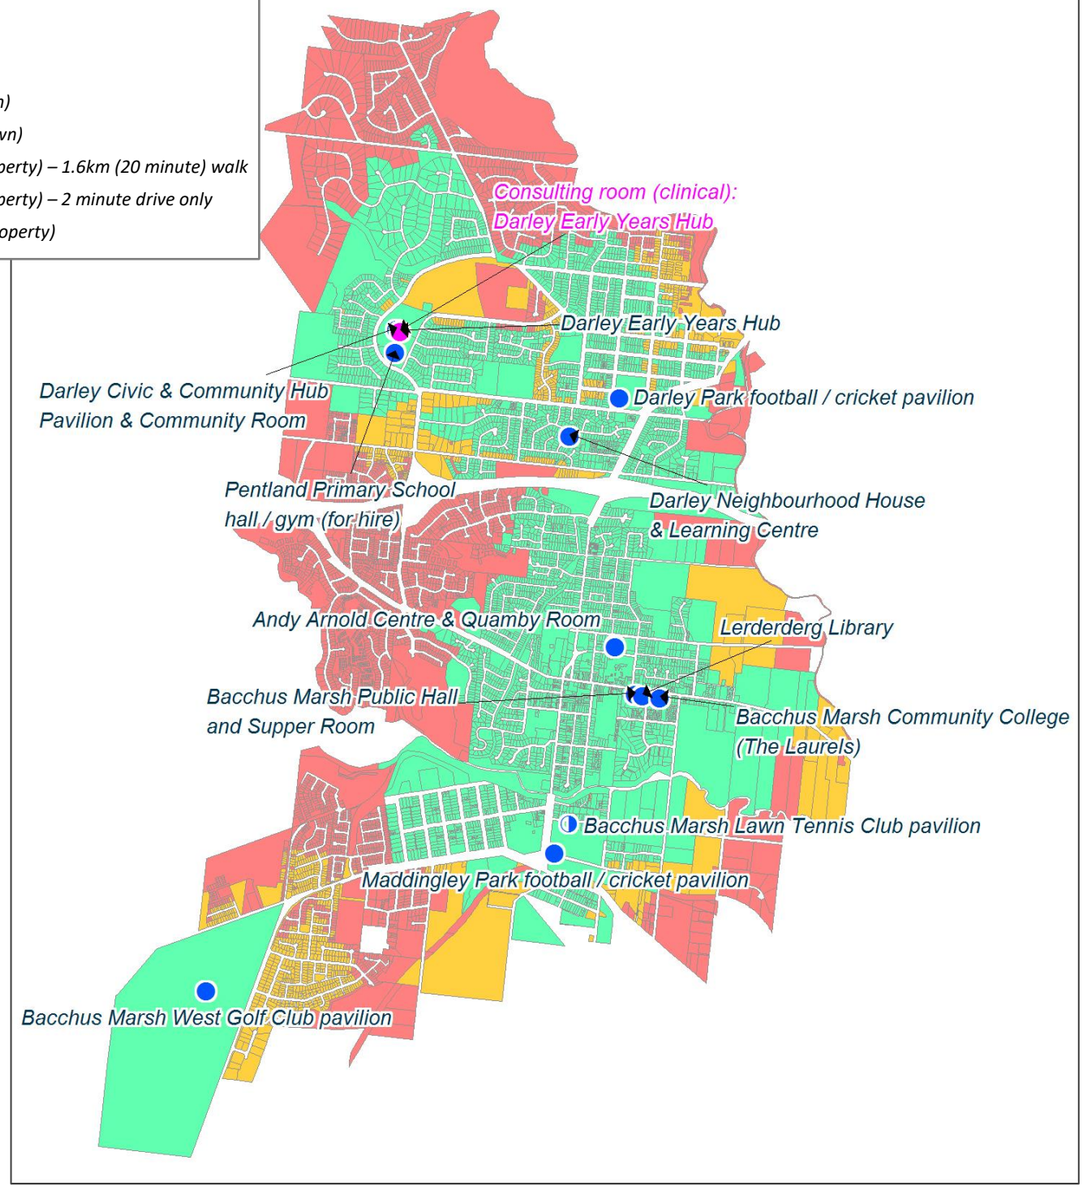
Designed for A3 paper

MULTIPURPOSE COMMUNITY ROOM

SMALL TOWNS & RURAL AREAS



MAP INSERT – BACCHUS MARSH & SURROUNDS



Travel Standards (SMALL TOWNS & RURAL AREAS):

Population range	Travel Accessibility Standard
Less than 200	10 minute drive
200 to 500	5 minute drive
500 to 2,000	5 minute drive
2,000 to 6,000	5 minute drive

Travel Standards (URBAN PROPERTIES):

Population range	Travel Accessibility Standard
More than 6,000	1.6km walk (20 mins) / 2 min drive

The Travel Accessibility Assessment uses the *VicMap Address* database. Newly created or renumbered addresses that have not yet been added to the VicMap Address database will appear red on the 'Bacchus Marsh and Surrounds Insert' map. For this reason, individual properties or small groups of properties shown red but surrounded in green are most likely affected by this error and will be corrected over time as the VicMap Address database is updated.

MAP A2: TRAVEL ACCESSIBILITY ASSESSMENT RESULTS

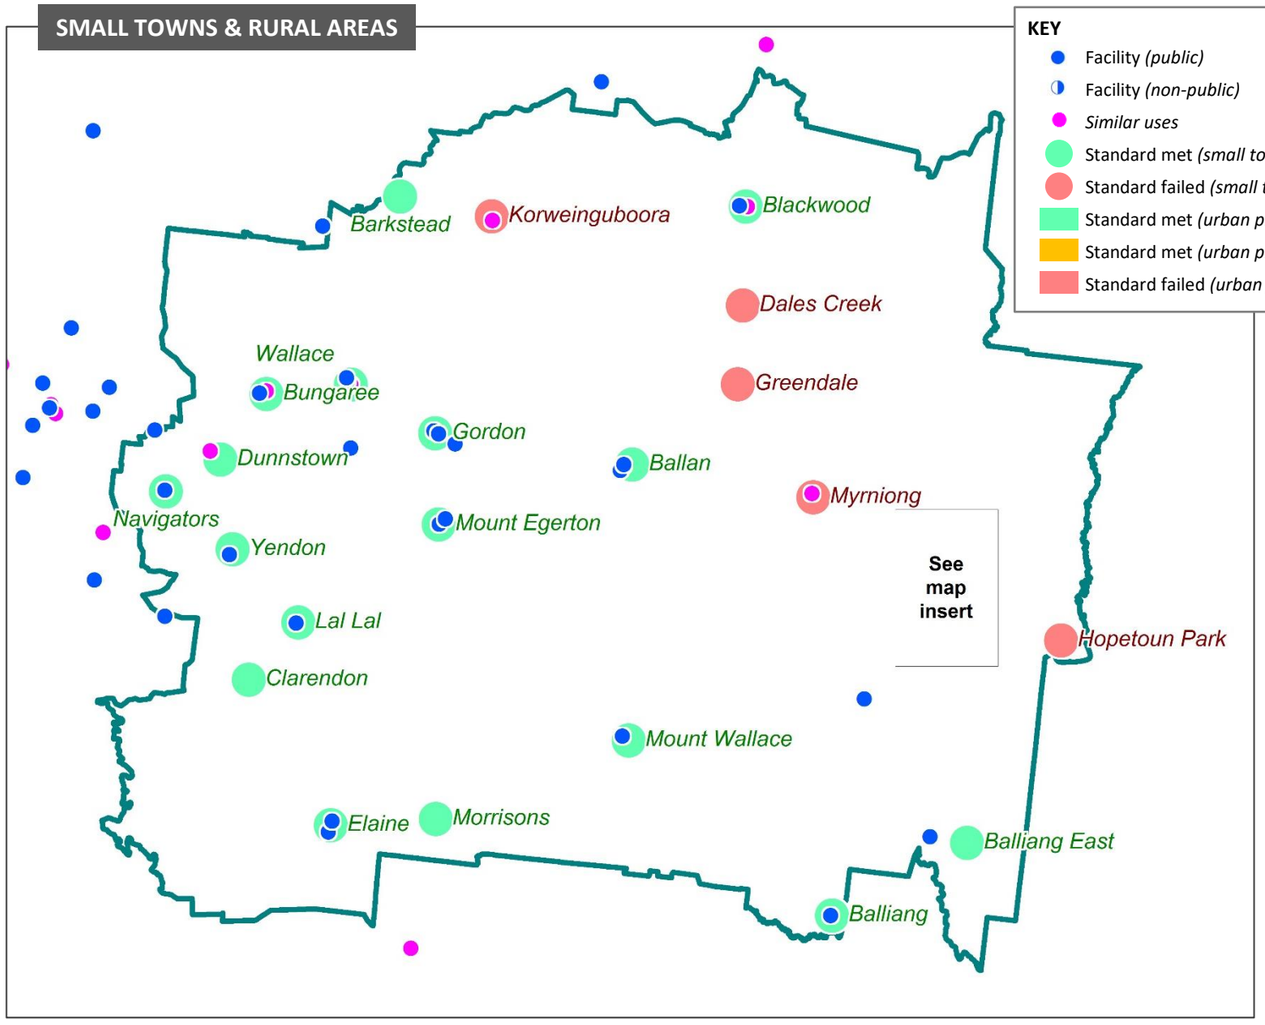
Report: Community Needs Analysis Findings, Moorabool Community Infrastructure Framework

Due to the complementary nature of provision, these results should be interpreted alongside the maps for 'Multipurpose community room', 'Community venue – district' and 'Community venue – municipal'

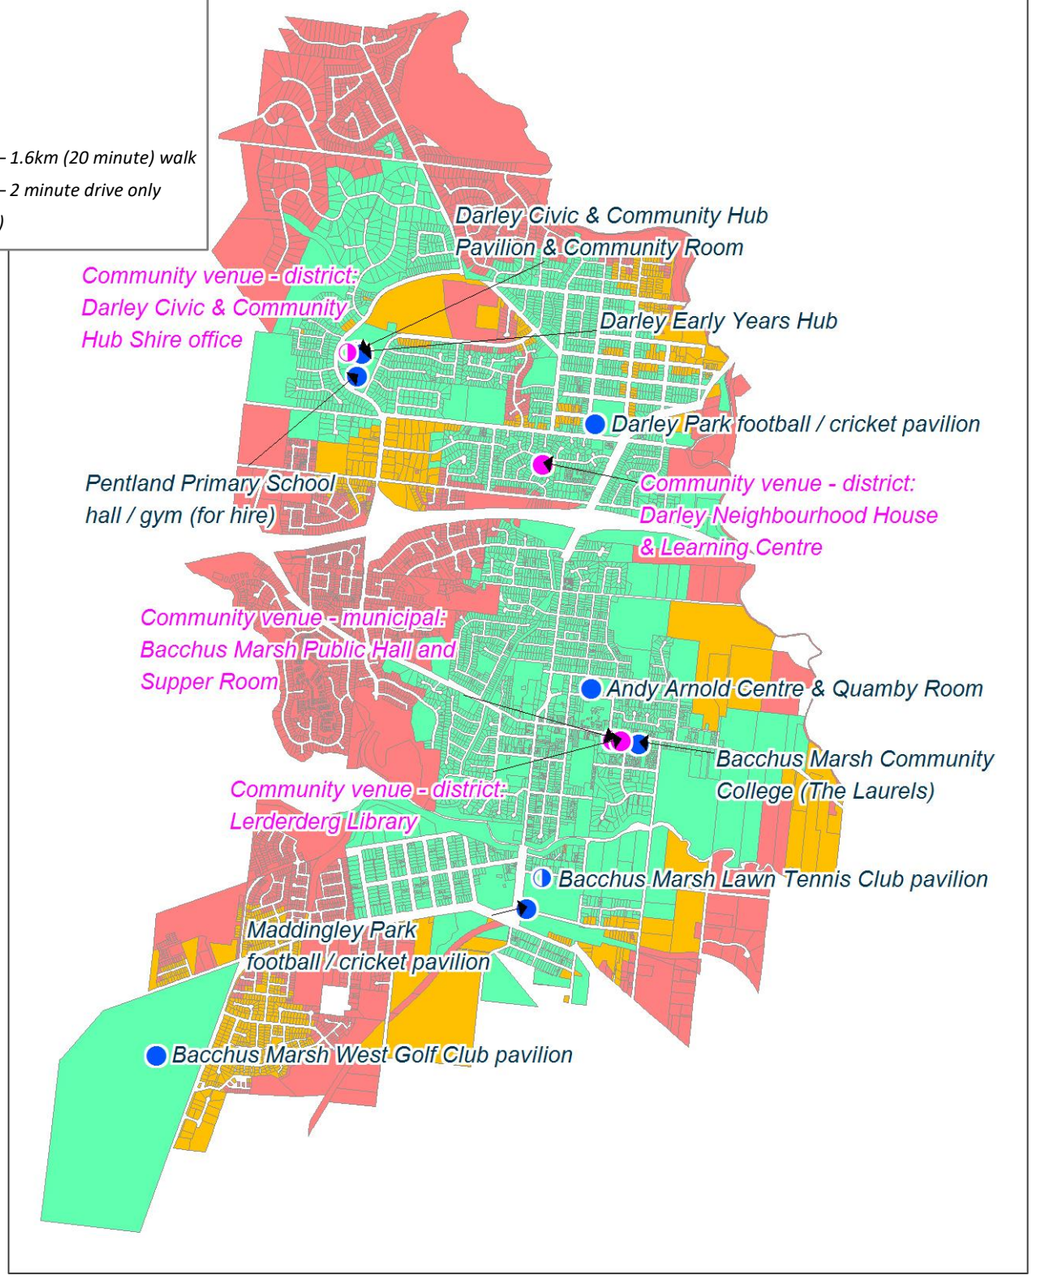
Designed for A3 paper

COMMUNITY VENUE - LOCAL

SMALL TOWNS & RURAL AREAS



MAP INSERT – BACCHUS MARSH & SURROUNDS



Travel Standards (SMALL TOWNS & RURAL AREAS):

Population range	Travel Accessibility Standard
Less than 200	10 minute drive
200 to 500	5 minute drive
500 to 2,000	5 minute drive
2,000 to 6,000	5 minute drive

Travel Standards (URBAN PROPERTIES):

Population range	Travel Accessibility Standard
More than 6,000	1.6km walk (20 mins) / 2 min drive

The Travel Accessibility Assessment uses the *VicMap Address* database. Newly created or renumbered addresses that have not yet been added to the VicMap Address database will appear red on the 'Bacchus Marsh and Surrounds Insert' map. For this reason, individual properties or small groups of properties shown red but surrounded in green are most likely affected by this error and will be corrected over time as the VicMap Address database is updated.

MAP A3: TRAVEL ACCESSIBILITY ASSESSMENT RESULTS

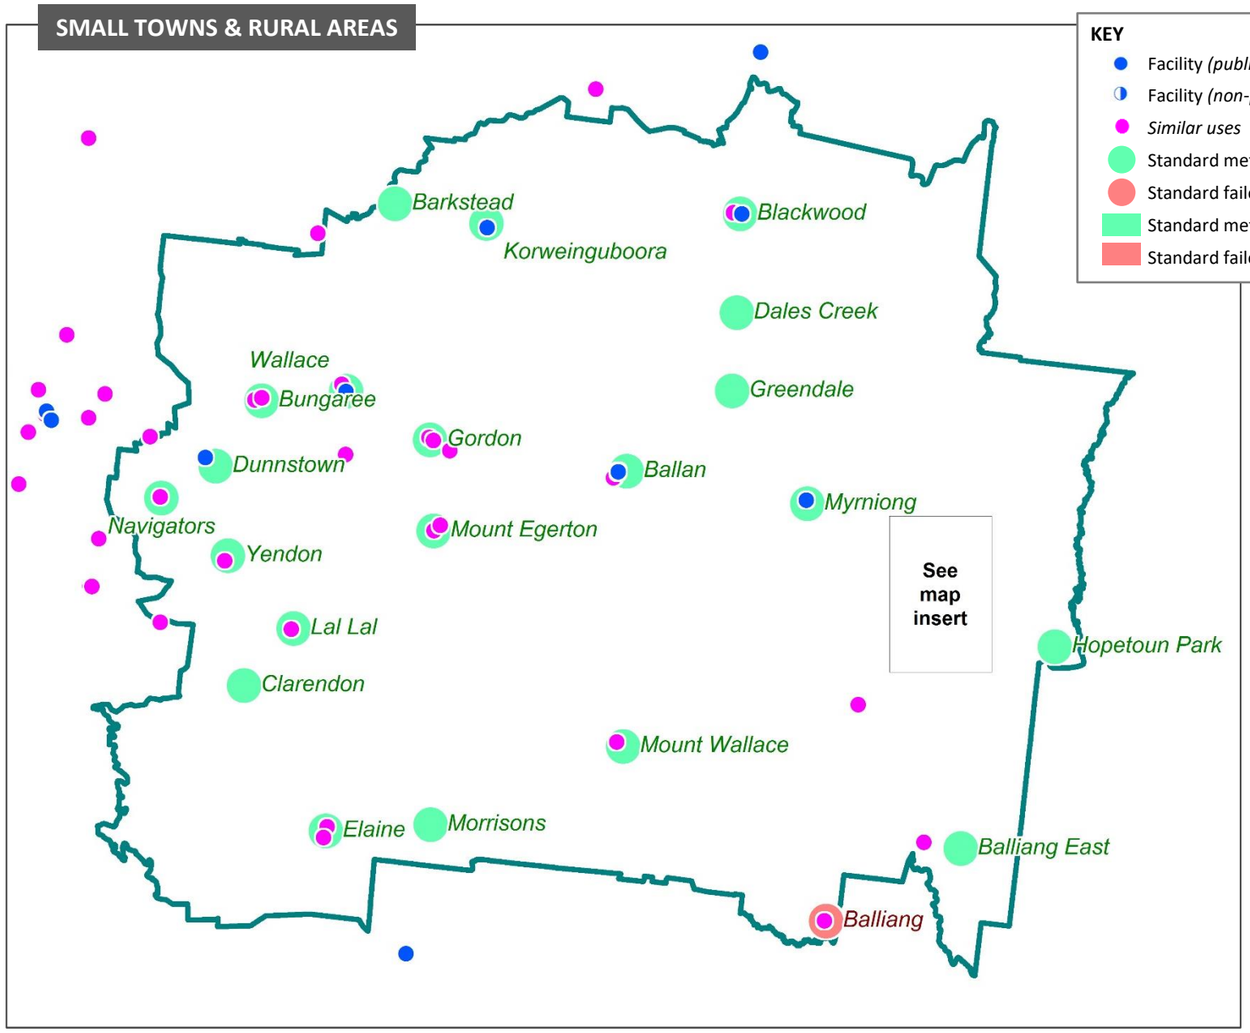
Report: Community Needs Analysis Findings, Moorabool Community Infrastructure Framework

Due to the complementary nature of provision, these results should be interpreted alongside the maps for 'Multipurpose community room', 'Community venue – local' and 'Community venue – municipal'

Designed for A3 paper

COMMUNITY VENUE - DISTRICT

SMALL TOWNS & RURAL AREAS



MAP INSERT – BACCHUS MARSH & SURROUNDS

Travel Standards (SMALL TOWNS & RURAL AREAS):

Population range	Travel Accessibility Standard
Less than 200	15 minute drive
200 to 500	10 minute drive
500 to 2,000	10 minute drive
2,000 to 6,000	10 minute drive

Travel Standards (URBAN PROPERTIES):

Population range	Travel Accessibility Standard
More than 6,000	5 minute drive

The Travel Accessibility Assessment uses the *VicMap Address* database. Newly created or renumbered addresses that have not yet been added to the VicMap Address database will appear red on the 'Bacchus Marsh and Surrounds Insert' map. For this reason, individual properties or small groups of properties shown red but surrounded in green are most likely affected by this error and will be corrected over time as the VicMap Address database is updated.

MAP A4: TRAVEL ACCESSIBILITY ASSESSMENT RESULTS

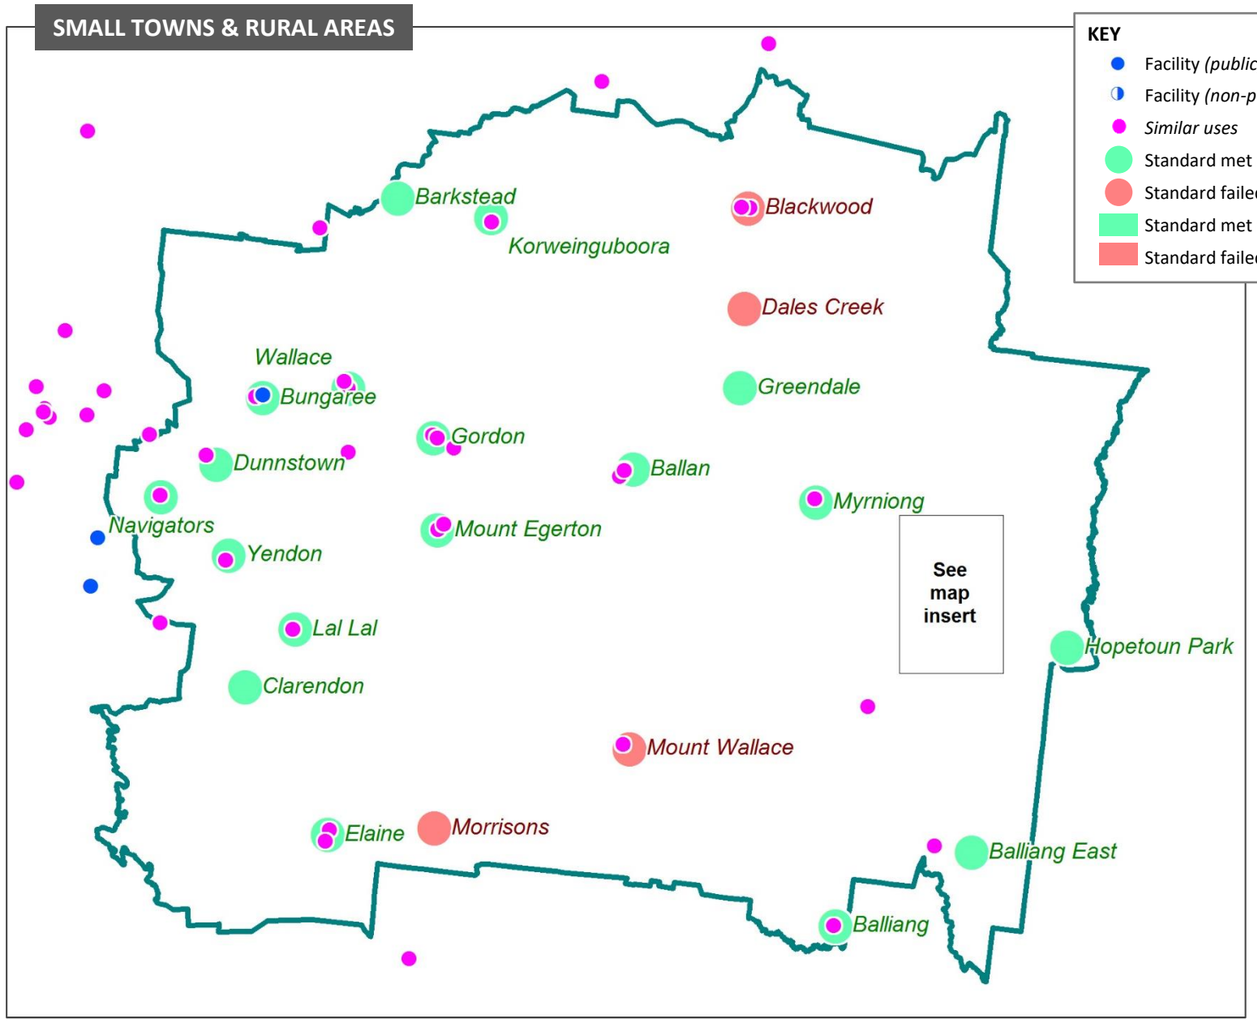
Report: Community Needs Analysis Findings, Moorabool Community Infrastructure Framework

Due to the complementary nature of provision, these results should be interpreted alongside the maps for 'Multipurpose community room', 'Community venue – local' and 'Community venue – district'

Designed for A3 paper

COMMUNITY VENUE - MUNICIPAL

SMALL TOWNS & RURAL AREAS



MAP INSERT – BACCHUS MARSH & SURROUNDS

Travel Standards (SMALL TOWNS & RURAL AREAS):

Population range	Travel Accessibility Standard
Less than 200	20 minute drive
200 to 500	20 minute drive
500 to 2,000	20 minute drive
2,000 to 6,000	20 minute drive

Travel Standards (URBAN PROPERTIES):

Population range	Travel Accessibility Standard
More than 6,000	10 minute drive

The Travel Accessibility Assessment uses the *VicMap Address* database. Newly created or renumbered addresses that have not yet been added to the VicMap Address database will appear red on the 'Bacchus Marsh and Surrounds Insert' map. For this reason, individual properties or small groups of properties shown red but surrounded in green are most likely affected by this error and will be corrected over time as the VicMap Address database is updated.
