

## Myrniong Native Plant List

This list provides information about the native plants found in Myrniong. Moorabool Shire recommends using these plants for any revegetation projects in this area.

Revegetation involves the re-establishment of vegetation, either by planting seedlings, sowing seed, or by using techniques to assist in the natural regeneration of the landscape.

For tips on revegetation and other land management information visit the Moorabool Shire's Parks and Environment Pages at [www.moorabool.vic.gov.au](http://www.moorabool.vic.gov.au)

Moorabool Shire has a free land management information pack which is available to property owners. To obtain your pack or to speak to the council environment department, please contact customer service on (03) 5366 7100 or email [info@moorabool.vic.gov.au](mailto:info@moorabool.vic.gov.au).
