

Bacchus Marsh Dementia Alliance

Djerriwarrh Health Services together with Moorabool Shire Council facilitated the establishment of The Bacchus Marsh Dementia Alliance. The aim of this alliance is to develop a dementia friendly Bacchus Marsh with the purpose of improving dementia awareness and reduce the stigma associated with dementia, enabling people living with dementia to remain actively involved in the community. Members comprise of people from local organisations, businesses and community members.

The alliance meets on a bi-monthly basis for the planning and early implementation phases of the project between June 2018 and June 2019. A review by the committee will determine the ongoing schedule.

Are you interested in being part of this alliance to create a more inclusive municipality?
