

# *The Scary Shortcut*

UP 126

*DING! DING! DING! Jason woke up. Oh no i'm late for school, I better get to school quickly, if not i'll get detention. I have to take a shortcut through Lal Lal Falls. Even though it's raining and muddy Jason left the house, not even locking the door.*

*He ran to Lal Lal Falls. When he got to Lal Lal Falls he fell on a tree root and in a big mud puddle. He had photo day but Jason did not care and kept running. Not knowing, he ran down the wrong path and he saw a swamp with body bags around it, blood in the water and a blood path leading to a dark cave with a Zombie Shrek eating somebody's head.*

*That somebody's head was Jason's friend and Jason started running and he fell over and Shrek heard him fall over and started running after Jason. Jason was so scared. He ran faster than he ever did! Jason was so tired, but he didn't want to stop because Shrek was right behind him. So, Jason broke Shreks ankles and put Shrek right back in his swamp and left. Jason was laughing as he was running.*

*Then jason got to school but the crisis was not over because there was zombies at Jasons school and Jason was a bit confused that nobody was at school. He soon realised that zombie shrek had come to Jason's school and gave everybody a zombie virus.*

*By the end of the day everybody will become zombies, but if Jason could find the cure everybody will go back to normal and zombie shrek will die until the next time somebody swims in shrek's swamp. So Jason blocked off where Shrek sleeps so this crisis would not happen again. He also tracked down the science lab and stole the cure and threw it into the air and everybody went back to normal. The sun came out and flowers sprouted and the birds were chirping .*

## *The end*
